CAMPAIGN WILL BE ENLIVENED

All Parties Are Preparing for a Whirlwind Finish.

NEW YORK THE BATTLEGROUND

Republicans and Democrats Will Make Every Effort to Carry the Empire State, With Its Large Electoral Vote. Members of President Roosevelt's Cabinet Will Campaign in Ohio and Vice President Fairbanks in Indiana.

New York, Oct. 26.—The political campaign is to have a real whirlwind finish. From the highest to the lowest, all the spellbinders of all the parties will be out in force during the next six days and wavering voters will be urged by eloquent advocates of the several causes to cast their ballots "right." In practically every state of the Union rallies and mass meetings almost without number have been arranged, but it is in New York with its large number of electoral votes at stake that the real battle will be waged. There practically all the leading candidates will concentrate their efforts, ably assisted by a large number of the country's most forceful and resourceful campaigners. Ohio and Indiana also will be given considerable attention, particularly by the two leading parties. Among the speakers who will urge the voter of Ohio to support Mr. Taft will be several members of President Roosevelt's cabinet—Secretaries Root and Garfield, Postmaster General Meyer—and the Republican candidate for president himself will deliver two formal addresses at Cleveland and Youngstown on Saturday. Vice President Fairbanks will lead the Republican forces in Indiana, which will include Senators Beveridge and Hemenway, Edward H. Ozmun, consul general of the United States at Constantinople; John L. Griffin, United States consul at Liverpool, and Representative Gardner of Michigan.

Fight for New York.
William J. Bryan, after four days in New York state, will close his long, hard campaign by a series of speeches in Ohio, Illinois and Indiana. All the forces the Democratic national committee can summon will be brought to bear to secure the electoral vote of New York state for William J. Bryan. Led by the presidential candidate himself, who will speak four days in this state, an army of speakers will be sent into every county and town to spread the doctrine and appeal for votes for the ticket. Mr. Bryan went to the cities and towns in the southern tier Saturday and after two days' campaign in the greater city he will stump cities and towns that fringe the east shore of the Hudson river, which seldom are visited by Democratic candidates in search of support. The Democratic campaign in the state, it is planned by the party managers, will receive its impetus from the meetings here at Madison Square Garden and in Brooklyn. Besides these meetings many others at which Mr. Bryan will speak have been arranged in different parts of the city. Tammany Hall has planned to make the Madison Square meeting the greatest demonstration given the candidate in this campaign and red fire will burn and bands play in every assembly district on Manhattan island.

PARKHURST HAS RESIGNED

Gives Up Office He Has Held for Seventeen Years.

New York, Oct. 26.—Rev. Dr. Charles H. Parkhurst has resigned the presidency of the Society for the Prevention of Crime, an office which he has held for seventeen years. The resignation and the reason for it will be formally announced at a dinner to be held at the Hotel Gotham next Thursday night at which Rev. Dr. Parkhurst will be the guest of honor. Rev. Dr. Parkhurst became president of the society through a sermon that he preached on municipal politics in 1890 at the Madison Square Presbyterian church, of which he is the pastor. The late Rev. Dr. Howard Crosby, who was then president, was so impressed that he invited Dr. Parkhurst to begin a determined campaign against trafficking in liquor on the Sabbath and against gambling. He took an active part in the fight and extended the work to other forms of vice. His activity brought down on his head an equal amount of praise and criticism. But he continued in the work and many times made startling charges against officials of the police department.

TAFT TAKES A REST.

Republican Candidate Says He Is Somewhat Hoarse.

New York, Oct. 26.—William H. Taft reached New York at 6:15 p. m. from Gary, Ind., where he closed the campaign in that state. The eighteen-hour journey afforded the candidate complete rest from talking, and he took advantage of the opportunity to the fullest extent. Upon arriving he said he felt in first-class condition, although somewhat hoarse.

Henry W. Taft met his brother at the station and took him to his residence, where he spent the night.

The first lap of Mr. Taft's Eastern campaign will begin with a run to New Haven, Conn., after which the Taft special will again be in New York and in the evening Mr. Taft will address a meeting in Brooklyn.

After the election is over Mr. Taft is planning to take a brief rest.

"I have campaigned in twenty-one states," said Mr. Taft. "I expect to carry all of them with the exception of those south of Mason's and Dixon's line and possibly Maryland and Missouri. The situation looks better than at any previous time, and I shall enter upon the last lap of the campaign with a great deal of interest and enthusiasm."

The journey from Gary to New York was made without incident. Stops were made only to change engines, and the record speed of the eighteen-hour trains to Chicago was maintained.

Taft Confident of Success.

Mr. Taft talked freely to various callers, in all cases expressing confidence in the outcome of the campaign. Asked to particularize as to the results in various states, Ohio for instance, Mr. Taft said he had not a doubt but that Ohio would be strongly for him.

"If I couldn't carry my own state I wouldn't deserve to be running for president," he said.

The presidential candidate expressed great appreciation of Governor Hughes' service in behalf of the national ticket. The New York governor's work in the West, Mr. Taft said, had demonstrated beyond all question Mr. Hughes' right to a distinctive place in the national political field, and had been of great value to the Republican cause.

ANSWERS CHARGES MADE BY HASKELL

Interior Department Issues a Statement.

Muskogee, Okla., Oct. 26.—A statement was received here at the office of the commissioner of the Five Civilized Tribes from the interior department at Washington with instructions to publish the same for the information of the Osage nation, directly concerned, and the Five Civilized Tribes, incidentally interested, and to take every necessary step to bring it to the notice of the individual Osage Indians.

The statement is an answer to Governor Haskell's recent charges for the information of the Indians of the Osage nation and says: "Governor Haskell's recent open letter to the president charges that the president acted unfairly to the Osage Indians in the matter of fixing the royalty for the lease of their oil lands to the Indian Territory Illuminating Oil company. Governor Haskell's statements are deliberate falsehoods. As his disregard of truth is willful, no reply will be made to him personally, but President Roosevelt and Secretary Garfield are not willing that the Osage Indians should not know the truth about these matters. In order that they may not be deceived by Governor Haskell's false statements. For this reason they send to the Indians the truth about each of the charges he makes."

The statement takes up Haskell's charges in detail and analyzes them to show their deliberate untruth.

The statement concludes: "Haskell attempts, by deliberate and reiterated falsehood, to give the false impression that he is championing the interests of the Indians. The department knows of one matter in which he has shown a practical interest in Indian affairs, and this was when he procured plots of valuable townsite lands from the Indians, the methods of which procurement are declared to be fraudulent in suits filed against him and now pending in courts to recover for the Indians the land which he has thus procured."

DEPARTURE OF ATLANTIC FLEET

One of the Prettiest Features of the Week in Japan.

CONNECTICUT LED THE WAY

Flagship the First of the Big Fighting Machines to Leave Yokohama Bay. Entire Fleet Under Way in Less Than an Hour—Japanese Naval Men Loud in Their Praise of the Behavior of American Sailors.

Tokio, Oct. 26.—After a week's suspension of almost every kind of business because of the presence of the American fleet in Japanese waters and so that fitting welcome might be given to the American officers, Tokio is resuming its normal conditions. Already many of the decorations have been taken down, although everyone is yet discussing the remarkable features of the past few days.

President Roosevelt's message to the emperor was presented to him through Count Komura, the foreign minister, and the emperor soon will make a reply, but there is no reason to expect that the emperor's message will contain other than a graceful acknowledgment and an expression of gratification at the president's warm words of appreciation. Nothing could possibly exceed in the public mind in Japan the significance of the emperor's previous message.

The departure of the fleet was one of the prettiest features of the week. The flagship Connecticut slipped her cable at exactly 8 o'clock a. m. She steamed past the Louisiana and saluted and was followed by the remainder of the squadron. When the eight ships had passed, the Louisiana led the second line, and the entire fleet then passed in single column.

As each of the American battleships passed the head of the Japanese column, the crews of the ships of both nations cheered enthusiastically and the band on each of the American ships played the Japanese national hymn. When the last of the sixteen ships was saluting, the Connecticut was invisible on the horizon. Within exactly fifty minutes the entire maneuvers had been completed.

The Japanese naval men are loud in their praise of the behavior of the American sailors and are especially appreciative of Rear Admiral Sperry's bearing throughout. The last hours of the bluejackets' stay ashore, however, was rather disastrous to the record of non-absentees. Since midnight Saturday twenty-six men have been reported missing but the majority of these were picked up and will be placed on board the Yankton. No actual case of desertion has occurred, for it is believed that in every instance those who failed to report when their ships sailed were simply suffering from excess of hospitality.

DOUBLE TRAGEDY.

Policeman and Cowboy Clash and Both Are Killed.

New Orleans, Oct. 26.—News has been received here of a double tragedy at Gulfport, Miss., in which a cowboy belonging to a Wild West show and a Gulfport policeman lost their lives. While the show was preparing to leave for New Orleans, Lon Seeley, the cowboy, is alleged to have ridden into a crowd of negroes, beating them over the heads with the butt of his revolver. Policeman Leo Varnadoe started in pursuit of Seeley. Later their bodies were found near the railroad, each body bearing a single bullet wound and each man's revolver containing one empty shell. Seeley was the son of a ranch owner living near El Paso, Tex.

KILLED BY HIS BROTHER.

School Boy Accidentally Shot While Hunting.

Harrisburg, Pa., Oct. 26.—Albert Bell, a twelve-year-old school boy, was shot and instantly killed by his sixteen-year-old brother Raymond while hunting in Wildwood park. With the brothers on a hunting expedition were three other boys, one of whom without saying anything to anyone, slipped a cartridge into the rifle, which was the only weapon they had. Later on Raymond playfully pointed the rifle at his brother and pulled the trigger, the youth sank to the ground with a bullet in his brain.

Some of the forgetful victims of these examinations in supplementary proceedings remind one of Bryan's state of mind regarding his abandoned issues.

Conference at Berlin on the Balkan Situation.

St. Petersburg, Oct. 26.—No announcement has been made by the foreign office as to the progress of negotiations at Berlin between M. Iswolsky, the Russian foreign minister, and Prince von Buelow, the German chancellor. The conference, so far as can be learned, has scored no definite results and will be continued.

Advices from Berlin, however, have in nowise lessened the confidence here that the proposed international congress will ultimately be accepted by Germany, although the negotiations are apt to be continued for some time after the return of M. Iswolsky. The invitation to take part in the congress, therefore, will be correspondingly delayed.

M. Iswolsky, interviewed by the Novoye Vremya's Berlin correspondent, declared that Austria's action was a blow at vital Slavic interests, and that the indignation of the Russian press and public could easily be understood, but he asked the people to suspend judgment with regard to his activity in this connection until his return to Russia, when he hoped, with the emperor's permission, to make a statement before the duma. Any premature publication of his programme, he said, would have an injurious effect upon the progress of the negotiations.

It is reported that the Octoberists in the duma have decided to support the foreign minister, but President Khomyakov in an interview said that Russia should refuse to recognize the annexation of Bosnia and Herzegovina, which was a mere prelude to further aggressions on the part of Austria-Hungary. He also was opposed to the opening of the Dardanelles, urging that Russia's interests could be better served with the straits in the hands of friendly Turkey.

STORY DENIED BY ELKINS

Did Not Receive Money for Improper Purposes From Archbold.

Pittsburg, Oct. 26.—Justice John H. Elkins of the Pennsylvania supreme court, whose name was introduced by William R. Hearst in the alleged Standard Oil correspondence read by the editor at a meeting in New York Saturday night, denied that he ever had received money for improper purposes from John D. Archbold or ever had attempted to influence legislation in behalf of the Standard Oil company.

Justice Elkins came here from his home in Indiana, Pa., to resume his work with the supreme court, which is in session here.

The west is marketing the biggest wheat crop in its history, and it is not on a parity with silver either, as Mr. Bryan may learn from a glance at the market reports.

Laboring men have been showing Mr. Taft during his tour of the country that they have not been misled or deceived by the charge that he is unfriendly to their interests.

Benjamin F. Russell Dead.

St. Louis, Oct. 26.—Benjamin F. Russell, deputy internal revenue collector and sergeant-at-arms of the national house of representatives for two years during the McKinley administration, died suddenly at his home here as the result of an operation. Mr. Russell for years was a well known Missouri editor and political writer and was speaker of the Missouri house of representatives in 1895. He was sixty-five years old.

Dies at End of Journey.

Greenville, Pa., Oct. 26.—After traveling over 5,000 miles to see his brother, A. L. Wick, a retired banker who is at the point of death at the Greenville hospital, William W. Wick of Portland, Ore., died at a local hotel a few hours after his arrival and before he could visit his brother. Mr. Wick died of apoplexy. It is feared his death may hasten the death of his brother.

Blows Out His Brains.

Mobile, Ala., Oct. 26.—Major Edward Murphy Robinson, prominent at the local bar and in politics, committed suicide by blowing out his brains at his home here. He was considered one of the leading orators of the state. Major Robinson was born at Stickton, Ala., in 1873.

LONG DROUTH BROKEN.

Rain Extinguishes the Forest Fires in Pennsylvania.

Philadelphia, Oct. 26.—The drouth which has continued in this state for nearly two months has been completely broken in some sections, while in other localities fitful showers have been falling for nearly twenty-four hours. A report from Williamsport states that the drouth in that part of the state has been broken and that the forest fires have been extinguished. It has been raining incessantly for twenty-four hours. Reports from Lancaster, Scranton, Bethlehem, Johnstown, Altoona and other points say that light showers have fallen intermittently for the past twenty-four hours.

Style, Service and Satisfaction All in a WOOLTEX Coat

STYLE—The woman who follows fashion's lead knows that a general utility coat must be on long, loose, graceful lines, with ample skirts and roomy armholes—a WOOLTEX Marchioness coat.

SERVICE—The woman who looks for service, chooses a WOOLTEX Marchioness coat because it can be worn with equal suitability for calling, as an evening wrap, or for traveling.

SATISFACTION—The woman who thinks, chooses a WOOLTEX Marchioness coat because she knows that the label is a guarantee that the garment is pure wool and will keep its shapeliness through two seasons' wear, and that the style is absolutely correct.

Look for the label WOOLTEX—it insures your satisfaction. The prices are decidedly reasonable for such excellent quality.

THE TAX ON IRON ORE.

In common with the balance of Northern Minnesota, Crow Wing county is just now greatly interested in the development of the iron ore industry. Millions of tons of rich iron ore in the Cuyuna range are awaiting the touch of pick and shovel, and, if let alone, it will not be long before we shall see and feel the effects of this great industry right at our door. This city is vitally interested—every man, woman and child in Crow Wing county is interested. It is a sink or swim, life or death proposition with many, and the future prosperity of both city and county depends largely upon the activity of the mine owners upon this range. Is this great industry which means so much to us all to be strangled and killed before it's birth, or will the people stand shoulder to shoulder, the men who gain their livelihood from labor at the mines, the farmer, the mechanic and the business man, and fight for their own interests as against those of a man who would place a tonnage tax on iron ore? If the democratic party is successful and John A. Johnson is elected governor and the plank in their platform is upheld it means that not one pound of iron ore can or will be mined and shipped out of Crow Wing county. The placing of a tonnage tax on iron ore means the abandonment of the mines, the utter dissolution of this great industry that has promised so much for the people in this locality and in general throughout the northern part of the state. The proposition of the democratic party which declares for a tonnage tax and whose candidate for governor says he will enforce it has so far aroused St. Louis county that the people have banded themselves together regardless of politics for the defeat of Gov. Johnson. It is not politics, it is self-preservation, and whatever affects the mining districts of St. Louis county is applicable to Crow Wing county. Listen to what Gov. Johnson and the democratic platform says:

THE TONNAGE TAX ISSUE

Governor Johnson in his message to the legislature, January, 1907:

"A royalty tax, were the total thereof equivalent to 5 cents per ton on the present tonnage of 25,000,000 tons shipped from Minnesota mines in 1906, would net \$1,250,000, or somewhat exceed the present tax revenue derived from direct taxation of tangible property. This royalty tax should go to the state treasury and represent the total taxation of the intangible property or rights of mining companies and the fee holders, leaving the direct reality tax as now for the support of local government."

Governor Johnson in his speech at Montevideo opening the present campaign:

"If you stand for the liberal policy of state development, there must be adequate revenue, and will you raise this revenue by increasing the burden upon the farms, homes and business houses, which always pay their share? Or will you raise your increased revenue from iron ore, lumber, franchises, royalties and inheritances, which in the past have shared taxation the least while able to bear taxes the most?"

The democratic platform, on which Governor Johnson is a candidate for a third term:

"We would call the attention of the voters of this state to the fact that there will be pending before them at the next election an amendment to the constitution dealing with the subject of

taxation. That this amendment will open the way for the passage of a tonnage tax on iron ore."

We have just started on an era of prosperity and every man who desires the welfare of the community should take up the cry and give it the widest publicity possible. We put it to you men of Crow Wing county whether you want this tonnage tax or not? By your votes say to Gov. Johnson, "Hands off," for a vote for Johnson is a vote for a tonnage tax, all of which shall go to the state. It is a vote to increase the taxes of every tax payer in Crow Wing county and the expenses of every business man in the county. Vote at the coming election for yourselves, this time, instead of for the purpose of satisfying some political ambition. A vote for J. F. Jacobson is a vote for the future progress and development of the iron ore industry just opening up in Northern Minnesota and right at our very doors.

PEGGY'S ADVICE.

Why It Suddenly Changed From Excellent to Worthless.

It was the era of the first Quincey baby, and the attention of the entire Quincey family, consisting solely of mother and father, was directed to the proper upbringing of the infant. Books on babyhood were bought and digested. Suitable magazines were subscribed for. Friends and mothers were consulted on every point. But, to the wonder of the solicitous, Mrs. Quincey declared that the advice that did the most good was that which appeared in the morning paper, signed with the fetching name "Peggy." But the time came when even that was discarded.

"Aren't you going to read me the little lesson from the Journal for today?" asked Mr. Quincey at the breakfast table.

"I shall never read that stuff to any one any more," said the mother firmly.

"Why not? Only day before yesterday you were saying what excellent recommendations Peggy made about crying children. Why do you desert her?"

"I'll tell you, Tom," she said. "I had meant not to say a word about it, because it is so humiliating, but now you've spoken—well, I might as well confess. The paper yesterday said something I didn't quite understand, and, as I was downtown, I thought I'd just run into the office and ask Peggy what she meant. So I did. The office boy smiled when I asked for Peggy, but he took me up a lot of dirty stairs and then pointed to a door. I knocked, and a voice answered, 'Come in!'"

"Well?" queried her husband.

"Well, there isn't any Peggy! Not a woman at all, but a perfectly horrid, grinning man, smoking a cigar! He writes that advice—a man! What do you think of that, Tom?"

Mrs. Quincey paused in her indignation.

"I thought you found the advice good, as a rule," he objected.

"Tom Quincey, how could a man in a newspaper office write good advice to mothers? I am surprised! You men think you know everything!"—Youth's Companion.

When You Buy Oysters Don't Pay For Water

Why should you get a pint of water with every quart of Oysters? Water is cheap—bloats and bleaches the oyster—spoils its natural flavor.

You have never known how good oysters can be unless you have had

"Sealshipt" Oysters

They are shucked into air-tight steel cans and shipped direct from the beds—packed with ice around the container, not in contact with the oysters. You get all solid meats. And how fresh, wholesome, appetizing and deliciously different they are!

Ask for "Sealshipt Sense," a booklet containing new and attractive ways of preparing oysters.

If your dealer doesn't sell "Sealshipt," here are some who do:

H. H. Baker and C. W. Koenig

The genuine "Sealshipt" Oysters are always sold from a White Porcelain Display Case bearing the "Sealshipt" trade mark in blue. This is for your protection—look for it. The "Sealshipt" Carrier System is patented. Infringements will be prosecuted to the full extent of the law.

for the republic of an Altgeld, a Tillman or a Bryan."

Colonel Watterson was a true prophet. He knew the impulse and desire of the people, and his judgment was completely vindicated by the verdict of two consecutive campaigns for the presidency. The people held fast to the ideals of Washington, Jefferson and Jackson. They spurned the base political standards of Altgeld, Tillman and Bryan and elected to the presidency a worthy successor to the men of heroic stature who had steadfastly upheld the dignity and discharged the duties of that great office.

Colonel Watterson's prophecy will hold good this year, as it did in 1896 and 1900. Bryan has not changed. The national conscience has not changed. The people have not changed. The ethical principles and the party policies at issue in 1896 are at stake in the present campaign. Bryan stands for the same violent influences, the same ruinous policies, the same discreditable purposes, that he represented twelve years ago. His candidacy is a challenge and an affront to the conservative, constructive forces of our common citizenship and will be rebuked as indignantly as it was in his former campaigns.

The Watterson prophecy was not cast for 1896 or 1900 alone, but for all time and all Bryans. It was inspired by a profound belief in the patriotism and rectitude of the people. To doubt that it will be fulfilled this year as completely as it was twice before would be questioning the genuineness of Colonel Watterson's gifts as a prophet and assuming that the people have turned traitors to themselves.

It may be remembered that the old Knights of Labor organization went to pieces when its leaders tried to deliver it to the people.

Why should you get a pint of water with every quart of oysters? Water is cheap—bloats and bleaches the oyster—spoils its natural flavor.

You have never known how good oysters can be unless you have had

"Sealshipt" Oysters

They are shucked into air-tight steel cans and shipped direct from the beds—packed with ice around the container, not in contact with the oysters. You get all solid meats. And how fresh, wholesome, appetizing and deliciously different they are!

Ask for "Sealshipt Sense," a booklet containing new and attractive ways of preparing oysters.

If your dealer doesn't sell "Sealshipt," here are some who do:

H. H. Baker and O. W. Koenig

The genuine "Sealshipt" Oysters are always sold from a White Porcelain Display Case bearing the "Sealshipt" trade mark in blue. This is for your protection—look for it. The "Sealshipt" Carrier System is patented. Infringements will be prosecuted to the full extent of the law.

INDUSTRIAL CONTEST OF RURAL PUPILS

Display of Corn and Vegetables
Were all of Very High Or-
der of Excellence

WILL GO TO STATE EXHIBIT

A. D. Wilson, Supt. of Farmers' In-
stitutes Praises Crow Wing
County Products

The boys and girls of Crow Wing
County who enrolled for the Industrial
contest for the girls and boys of Min-
nesota, held an exhibit of their work
in the grand jury room in the court
house last Friday and Saturday. The
exhibit far exceed those of previous
years.

There were 11 entries of corn, 8 of
potatoes, 5 of carrots, 1 of oats, 1 of
onions, 1 of rye bread and one of white
bread. Miss Mae Holbrook of Neutral
school sent in a work apron which the
lady visitors pronounced to be of most
excellent workmanship. The corn, po-
tatoes and carrots were pronounced by
A. D. Wilson, superintendent of farmer's
institutes, who did the judging,
to be excellent, especially the potatoes
and carrots. Mr. Wilson requested the
county superintendent, who had charge
of the exhibition to send the potatoes,
oats, corn and carrots to the state ex-
hibit at St. Paul which will be held in
December. The first prize for dent
corn was awarded to Grover Peterson,
of District 29. The first for flint corn
went to Iver Hagen, of District 49. This
flint corn was pronounced by Supt.
Wilson to be as fine as any that he had
ever seen. The gentleman also ex-
pressed himself of being of the opinion
that they could not be surpassed at the
state contest. The first prize was
awarded to Charley Milligan of Dis-
trict No. 10. Cora Milligan captured
the first prize on carrots. The bread,
both rye and white were most excellent
as can be attested by ye reporter and
county superintendent.

This movement is yet in its infancy
but is already showing signs of great
activity. Last summer two schools
had gardens on the school grounds, pro-
viding lots of good things for the lunch-
eons of teachers and pupils.

Mary Kapple of District No. 1, sent
in a good sample of buttonhole work.

Next year it will be the object of the
management to interest the girls in the
line of needle work.

The education of head, heart and hand
should go together.

An Apt Comparison

"Sealship," Oysters which are now
on sale by H. H. Baker and C. W.
Koering are a recent development in
improved methods of oyster shipment.
They are packed by the National Oyster
Carrier Company, a concern whose aim
may be likened to that of the modern
up-to-date newspaper, inasmuch as both
are serving the public, the one in fur-
nishing fresh, clean news, the other in
providing oysters with the same quali-
ty.

The National Oyster Carrier Company
pack "Sealship" Oysters in steel con-
tainers with ice around the container.
No ice or water comes in contact with
the oysters, so the consumer gets solid
meats, natural size and color—not
bleached and bloated or mashed by ice.

"Sealship" Oysters are sold from a
porcelain lined display case with the
"Sealship" trade mark in blue and
white on the outside. This is a guar-
antee that you are getting the finest
oysters produced and that they have
the real, piquant, delicate oyster flavor.
They are entirely different from the
common tub oysters.

TEACHERS' MEETING

Meeting of Crow Wing County Edu-
cational Association Was One of
Best in its History

The thirtieth session of the Crow
Wing County Teachers Association
which closed last Saturday was one of
the most successful in the history of
the association. The program as pre-
viously published was carried out with-
out a failure.

Over 75 per cent of the teachers of
the county were in attendance. The
election of officers for the ensuing year
resulted in Sarah E. Thorp, of Hubert,
being elected president, Elsie English
of the Clute school vice president, Lulu
Fuller, of Hubert, secretary, and Mar-
garet Friedsam, of Jenkins, treasurer.
The report of the treasurer showed no
debts and a snug balance on hand.

Dr. Colgrove who was present ex-
pressed himself as greatly surprised and
pleased at the active part taken by
the younger teachers in the discussions
on the questions propounded by the
county superintendent.

It would be hard to find anywhere a
more active and earnest corps of teach-
ers than those comprising the advanced
brigade of this association.

If you will get from your pharma-

taste good, because you would know
there would be no indigestion or sleep-

CONGRESSMAN LINDBERGH

Will Address the Voters of Brainerd
and Vicinity on Friday Evening
of This Week

On Friday evening, Oct. 30th, Con-
gressman C. A. Lindbergh will deliver
a political address at the Seventh street
roller rink. Mr. Lindbergh has been
delivering addresses in different parts
of the state continually since the cam-
paign opened and the call for his ser-
vices has been largely in excess of his
ability to fill. He has been doing good
work for the republican ticket and his
fame as an orator has been spread to
every section of the state. The speech
here on Friday will be followed by one
at Deerwood on Saturday evening. The
inability to secure the opera house on
the occasion of the Congressman's visit
here has been somewhat embarrassing,
but the rink which has been engaged
will be provided with chairs and the
audience will be made as comfortable
as possible and it is expected that it
will be packed to the doors. The opera
house dates for the entire week were
engaged some time ago for a week
stand show.

This evening the first of the country
meetings will be held, A. D. Polk and
C. A. Allbright having gone to Pequot
and will address the voters there.

Tuesday evening meetings will be
held at Davenport's and Long Lake.

fined \$1 and costs each. The company
is bound to put a stop to the practice,
not because they care for the value of

WEEKLY REVIEW OF TRADE

Business Still Reflects the Influence of
Warm Weather.

New York, Oct. 24.—Bradstreet's re-
view of trade says retail trade still
reflects the influence of warm weather
and the approach of election breeds
conservatism as regards heavy buying
and the projection of new enterprises.
However, there is more doing and
more confident buying of raw material
by manufacturers, who apparently
forecast a change for the better in
the latter part of this year or the
early part of next. The large move-
ment of wheat to market is responsi-
ble for the optimistic tenor of reports
from distributive centers in the North-
west. Effects of the drouth are shown
in almost total suspension of steam-

boat traffic on the Ohio river and its
tributaries, the holding up of large
quantities of coal along that stream,
the prevalence of destructive forest
fires and the low stage of water sup-
plies. Reports as to collections vary,
being best in the Northwest and poor-
est at the South. The situation in
textile lines is interesting and not
without encouragement. While job-
bing trade is confined largely to small
immediate shipment or filling in or-
ders, there is fair activity in the Chi-
cago district and farther West, where
the breaking of the drouth has helped
sentiment.

RAILROAD IS PUSHING CASE

Determined to Put Stop to Dan-
gerous Practice of Tres-
passing in its Yards

J. N. Omen and Joe Thompson, of
this city, were in the municipal court
this morning on warrants sworn out by
Geo. McDowell, a special officer in the
employ of the railroad company. Omen
was charged with taking on: bushel of
wheat from a car in transit, and plead
guilty to the charge. Thompson was
charged with the offense of taking two
bushels of flax under similar circum-
stances. Both plead guilty and were
fined \$1 and costs each. The company
is bound to put a stop to the practice,
not because they care for the value of
the wheat left in the cars, but because
the practice is very dangerous and un-
der cover of alleged sweeping, loaded
cars are robbed of wheat it is said that
it is often mixed with coal dust and
thus sold for sweepings to avoid suspi-
cion. Both paid their fines.

WEEKLY REVIEW OF TRADE

Business Still Reflects the Influence of
Warm Weather.

New York, Oct. 24.—Bradstreet's re-
view of trade says retail trade still
reflects the influence of warm weather
and the approach of election breeds
conservatism as regards heavy buying
and the projection of new enterprises.
However, there is more doing and
more confident buying of raw material
by manufacturers, who apparently
forecast a change for the better in the
latter part of this year or the
early part of next. The large move-
ment of wheat to market is responsi-
ble for the optimistic tenor of reports
from distributive centers in the North-
west. Effects of the drought are shown
in almost total suspension of steam-

boat traffic on the Ohio river and its
tributaries, the holding up of large
quantities of coal along that stream;
the prevalence of destructive forest
fires and the low stage of water sup-
plies. Reports as to collections vary,
being best in the Northwest and poor-
est at the South. The situation in
textile lines is interesting and not
without encouragement. While job-
bing trade is confined largely to small
immediate shipment or filling in or-
ders, there is fair activity in the Chi-
cago district and farther West, where
the breaking of the drought has helped
sentiment.

Temperance Workers Holding Their
Convention in Denver.

Denver, Oct. 24.—After two sessions
spent in business, the National Wo-
man's Christian Temperance Union
which began its thirty-fifth annual
convention at the Auditorium, devoted
an evening session listening to ad-
dresses of welcome from Governor
Henry A. Buchtel, Mayor Robert W.
Speer and others of this state and
city, and to responses by presidents
of several branches of the organiza-
tion.

One of the unexpected happenings
of the day was the resignation of Mrs.
Susanna M. D. Fray of Evanston, Ill.,
as corresponding secretary. Mrs. Fray
tendered her resignation with her an-
nual report.

During the day telegrams of greet-
ings were sent to Lady Carlisle and
Lady Henry Somerset of England, to
Miss Strout, resident missionary in
Japan, and Miss Gowen, resident mis-
sionary in South America, and also to
a number of prominent workers in the
temperance cause in the United
States.

OUTLOOK VERY ENCOURAGING

Mr. Bryan Pleased With Prospects of Success.

New York, Oct. 26.—After a week of hard campaigning William J. Bryan, Democratic candidate for president, rested in this city. The candidate had breakfast in his private car as it was dashing through New Jersey and arrived at 9:15 a. m. at Jersey City, where he was met by National Chairman Mack and Nathan Straus. Almost immediately the party crossed the ferry to New York, and Mr. Bryan was driven to the residence of Mr. Straus, where the day was spent in resting for this week's ordeal. At night the candidate dined at the home of Herman Ridder, treasurer of the national Democratic committee.

From here Mr. Bryan will go to Paterson, N. J., in fulfillment of a pledge made last week to make a speech there. At the conclusion of the meeting he will return again to New York city.

Mr. Bryan declared that with the exception of being very tired, he was feeling well.

"I am finishing the campaign better than I ever have," he said. "My voice has stood the strain well and I don't think that I have lost weight."

Mr. Bryan said that some of the forecasts he had seen in the papers did not agree with the reports that he had been receiving.

"How do things look, Mr. Bryan?" "Very encouraging," was the reply. "What do you think of Indiana?" he was asked.

Prospects Very Bright.

"We had very enthusiastic meetings there and also in Ohio. The prospects in both states are very bright," was the answer.

Mr. Bryan said that all the straw ballots that had been taken in the country showed Democratic gains. "but," he continued, "of course the accuracy of the straw ballot depends upon the way it is taken and the way the names are selected. You select a list of names to send postal cards to;

you receive many answers, but you have no way of finding out how the men who did not answer are going to vote. The trouble comes when you try to average the votes of those who have not responded with the votes of those who have responded."

"Where have the Democratic gains been this year in comparison with other years?" the candidate was asked.

"This year the Democrats have gained in every state. Heretofore we have made gains in some states and lost in other states. This year there are gains throughout the whole country and gains in every occupation. There are gains among the farmers; these gains are very marked. There are gains among business, professional men, and especially among college men, the most interesting point in this campaign as compared with the other campaigns that I have had anything to do with."

"What is the reason for this gain?" "Only one," replied Mr. Bryan. "I think that is that the Republican party, in power for twelve years, has failed to meet the responsibility."

SAILOR KILLS HIS WIFE.

Daniel Hennessy Then Puts a Bullet Into His Own Brain.

Norfolk, Va., Oct. 26.—Brooding over the alleged infidelity of his wife, Daniel J. Hennessy, a seaman of the United States navy, shot her dead in Portsmouth on their wedding anniversary. He then fired a bullet into his own brain. The pair had not lived together for some time. Hennessy was about twenty-four years old and his wife about twenty-one. They had been married a year.

Hennessy's home was in Troy, N. Y. He was a prize fighter of some note before entering the navy, being known as "Kid" Hennessy.

TO BE MARRIED NEXT MONTH

Miss Elkins and the Duke of the Abruzzi Will Wed.

SHORTLY AFTER THE ELECTION

Announcement of the Engagement Will Be Made—Question of the Duke's Departure for America Has Developed a Kind of Mania Among the Residents of Turin, Where He Now Is Stopping.

Elkins, W. Va., Oct. 26.—Within a month Katherine Elkins, daughter of United States Senator Stephen B. Elkins, will be the bride of the Duke of the Abruzzi.

The engagement will be announced from Washington immediately after election. The wedding will occur in Washington. Servants from the Elkins palace in this city will leave this week to get the Washington home in readiness for the return of Mrs. Elkins and

DUKE OF THE ABRUZZI.

her daughter to that city next week. It is reported that the Duke of the Abruzzi will go, when he comes to this country, to Washington.

Mrs. Elkins practically confirmed the engagement.

"I cannot say when the engagement will be announced," she said to a reporter. "You must be patient and await developments."

Turin, Oct. 26.—The Duke of the Abruzzi is still in Turin and the question of his departure for America has developed a kind of mania among the residents here. Even the most insignificant incident is interpreted, according to the wishes of the observer, as strong presumptive evidence that the duke is either about to take his departure or else is soon to rejoin his ship. He appears in naval uniform; immediately the report spreads that he has abandoned the idea of going to America, as he is evidently about to resume his duties on shipboard. The following day he appears in civilian dress and takes his meals at a restaurant; immediately the conclusion is reached that he is about to leave the city, having closed up his house.

Although the duke never mentions the subject of his marriage or his plans, every word that he speaks with his friends on any subject whatever is submitted to the same arbitrary interpretation as to his movements.

Those who see him daily, while claiming complete ignorance of his intentions, do not believe that he intends to leave for the United States for some time at least. But it is certain that there is a frequent exchange of cipher telegrams between him and King Emmanuel and his elder brother, the Duke of Aosta.

TRAVELING MAN A SUICIDE

Ends His Life Because His Sweetheart Was Faithless.

St. Paul, Oct. 26.—Leaving a letter to Coroner Arthur W. Miller, in which he ascribed the faithlessness of the woman he loved as the cause of his act, Robert W. Davies, a traveling drug salesman, who gave his address as Minneapolis, took morphine and died at the city hospital.

In his letter to Dr. Miller he showed great bitterness toward the woman whose actions he said were responsible for his act.

MANY ARRESTS MADE.

Two Women in Latest Batch of Reel Foot Lake Murder Suspects.

Camp Nemo, Reel Foot Lake, Tenn., Oct. 26.—Forty-four more prisoners, including two women, have been brought in in connection with the murder at Walnut Log last week of Captain Rankin.

No charges against any of the arrested ones have been made public. Aside from the arrests, the day passed quietly with the troops in the disturbed region.

Train Thieves Go to Prison.

Rhems, France, Oct. 26.—Three train thieves, believed to be Americans, who were known under the names of Bard, Bertha and Cauda, have been sent to prison for thirteen months for robbing passengers on express trains.

HUCKLEBERRY FARMING.

Agriculture With a Match in the Timber Regions.

"It may seem incredible to those who have never lived in or traveled much through timber districts where the huckleberry is indigenous," said a native of such district, "but it is a fact that there is a tribe of shiftless persons in all such regions who systematically and without regard to law, property or life set fire to woods or cut over land adjacent to woods simply to increase the area of huckleberry bushes."

"There is only one way in which huckleberries can be cultivated, and the huckleberry farmer does not need to own an inch of land. If he has the title to one simple lucifer match he can put thousands of acres under cultivation in a very short time."

"He has only to light the match and touch it to the dry leaves and branches on the ground, either in early spring or late fall, and his cultivation is soon under way. No matter what grew on the ground before fire swept it bare huckleberry bushes will never fail to spring up luxuriantly from the ashes and scorched soil. They will be in abundant bearing the next season. What the result may have been in life or property does not concern the persons who reap the benefit."

"Many of the fires that devastate our forests every year may be traced to this reckless and deliberate making or improving of huckleberry patches. I remember one instance particularly where the setting fire to the brush on a huckleberry barren in northern Pennsylvania resulted in a forest fire that swept over a 10,000 acre timber tract doing incalculable damage to the standing timber and reducing to ashes 50,000 feet of logs and lumber and 30,000 cords of tanbark, representing a money value of nearly \$750,000. Twenty persons were burned to death and thirty so badly burned that seven of them died from their injuries. The huckleberry crop gathered from this cultivation of that barren waste perhaps realized \$200 to the cultivators."—Washington Post.

PROVED HIS SPELLING.

An Incident in the Career of Stephen A. Douglas.

An amusing incident occurred in McLean county, Ill., at the first court which Stephen A. Douglas, the famous politician, attended after his election as prosecuting attorney. There were many indictments to be drawn, writes Professor Allen Johnson in his life of Douglas, and the new prosecuting attorney in his haste wrote the name of the county McLean instead of McLean. His professional brethren were greatly amused at this evidence of inexperience and made merry over the blunder. Finally John T. Stuart, subsequently Douglas' political rival, moved that all the indictments be quashed. Judge Logan looked at the discomfited youth and asked what he had to say to support the indictments.

Smarting under the gibes of Stuart, Douglas replied obstinately that he had nothing to say, as he supposed the court would not quash the indictments until the point had been proved. This answer caused more merriment, but the judge decided that the court could not rule upon the matter until the precise spelling in the statute creating the county had been ascertained.

No one doubted what the result would be, but at least Douglas had the satisfaction of causing his critics some delay, for the statutes had to be procured from an adjoining county.

To the astonishment of court and bar and of Douglas himself it appeared that he had spelled the name correctly. To the indescribable chagrin of the learned Stuart the court promptly sustained all the indictments. The young attorney was in high feather and made the most of his triumph. The incident taught him a useful lesson—henceforth he would admit nothing and require his opponents to prove everything that bore upon the case in hand.

ESCAPE FROM JAIL.

Three Alleged Counterfeiters Get Out of Prison at Madison, Wis.

Madison, Wis., Oct. 26.—Hugo, Albert and Rudolph Donnerstag, three brothers, arrested at Rhineland early in August for counterfeiting, broke jail here and were gone half an hour before their flight was discovered. They have not yet been captured.

They were locked in a cell on the third floor of the jail and got out of their cage by use of a key, and by sawing iron bars with a crude saw made from a steel slat from their cell cot. They slid to the ground on a rope made of bedding torn in strips and tied together.

BREACH OF PROMISE.

Manner in Which the Law Treats It in Different Countries.

England is the best place, from the plaintiff's point of view, for a breach of promise action. All other countries seem to regard with grave suspicion any attempt to recover monetary compensation for the loss of a prospective husband, and unless the plaintiff has a very strong case indeed it is never worth her while to carry her grief into the law courts.

In France breach of promise cases are rare, for the simple reason that the law requires the plaintiff to prove that she has suffered pecuniary loss. Now, this is not an easy thing to do on the part of the lady, especially in a country where a girl without a dot—that is, a marriage portion—has a poor chance of finding a husband. Holland and Austria have adopted the French system, and the result has been about the same. Breach of promise actions are rare, the injured damsels or their relatives usually taking the law into their own hands.

Practical Germany, as might be expected, has perhaps the best method for solving this problem. When a young couple become engaged they have to go through a public betrothal ceremony that ought to knock all the shyness out of them. In the local town hall the pair declare their affection, willingness to marry, etc., ending by signing a collection of documents that apparently leave no loophole for escape. But if either party to the contract wishes to withdraw another journey is undertaken to the town hall and another collection of documents signed, witnessed and sealed. Then the authorities determine the question of compensation—should it be claimed. In this connection it may be said that the man can and often does claim a solatium for his wounded feelings. The usual award is one-fifth of the marriage dowry. It is easy to understand when all this is remembered how loath the young people of Germany are to break their betrothal oaths.

As the law of Italy affords little or no protection whatever to jilted damsels or swains, it is not surprising that the stiletto should be the favorite mode of deciding breach of promise cases. The Italian law demands that the person suing for the breach shall produce a written promise to marry from the defendant; otherwise the action cannot proceed. This difficulty is almost insurmountable, and the Italian judges are seldom troubled to adjudicate between one time lovers.

To bring an action for breach of promise of marriage against a reigning monarch is an achievement, but it has been done, and by an English lady. Miss Jenny Mighell sued the sultan of Johore, and as there was a doubt whether the dusky one was actually a reigning monarch the case was allowed to come into court, but the judge quickly disposed of the action by ruling it inadmissible for the reason referred to, and Miss Mighell was nonsuited.

It is remarkable that one of the two actions which have brought verdicts for £10,000 each to the plaintiffs should have had for its defendant the editor of a matrimonial paper. The second case was between a well known actress and the eldest son of an earl.—London Tit-Bits.

Mr. Bryan has got near enough to the negro question to declare that the negro has a right to vote. He has the right, but it is not safe for him in states where Democrats are in power.

It is a strange plea of insurance against the danger of his own policies that Bryan makes in pointing out that his election would leave the Republicans in control of the senate.

TO BE MARRIED NEXT MONTH

Miss Elkins and the Duke of the Abruzzi Will Wed.

SHORTLY AFTER THE ELECTION

Announcement of the Engagement Will Be Made—Question of the Duke's Departure for America Has Developed a Kind of Mania Among the Residents of Turin, Where He Now Is Stopping.

Elkins, W. Va., Oct. 26.—Within a month Katherine Elkins, daughter of United States Senator Stephen B. Elkins, will be the bride of the Duke of the Abruzzi.

The engagement will be announced from Washington immediately after election. The wedding will occur in Washington. Servants from the Elkins palace in this city will leave this week to get the Washington home in readiness for the return of Mrs. Elkins and

DUKE OF THE ABRUZZI.

her daughter to that city next week. It is reported that the Duke of the Abruzzi will go, when he comes to this country, to Washington.

Mrs. Elkins practically confirmed the engagement.

"I cannot say when the engagement will be announced," she said to a reporter. "You must be patient and await developments."

Turin, Oct. 26.—The Duke of the Abruzzi is still in Turin and the question of his departure for America has developed a kind of mania among the residents here. Even the most insignificant incident is interpreted, according to the wishes of the observer, as strong presumptive evidence that the duke is either about to take his departure or else is soon to rejoin his ship. He appears in naval uniform; immediately the report spreads that he has abandoned the idea of going to America, as he is evidently about to resume his duties on shipboard. The following day he appears in civilian dress and takes his meals at a restaurant; immediately the conclusion is reached that he is about to leave the city, having closed up his house.

Although the duke never mentions the subject of his marriage or his plans, every word that he speaks with his friends on any subject whatever is submitted to the same arbitrary interpretation as to his movements.

Those who see him daily, while claiming complete ignorance of his intentions, do not believe that he intends to leave for the United States for some time at least. But it is certain that there is a frequent exchange of cipher telegrams between him and King Emmanuel and his elder brother, the Duke of Aosta.

TRAVELING MAN A SUICIDE

Ends His Life Because His Sweetheart Was Faithless.

St. Paul, Oct. 26.—Leaving a letter to Coroner Arthur W. Miller, in which he ascribed the faithlessness of the woman he loved as the cause of his act, Robert W. Davies, a traveling drug salesman, who gave his address as Minneapolis, took morphine and died at the city hospital.

In his letter to Dr. Miller he showed great bitterness toward the woman whose actions he said were responsible for his act.

MANY ARRESTS MADE.

Two Women in Latest Batch of Reel Foot Lake Murder Suspects.

Camp Nemo, Reel Foot Lake, Tenn., Oct. 26.—Forty-four more prisoners, including two women, have been brought in in connection with the murder at Walnut Log last week of Captain Rankin.

No charges against any of the arrested ones have been made public. Aside from the arrests, the day passed quietly with the troops in the disturbed region.

Train Thieves Go to Prison.

Rhems, France, Oct. 26.—Three train thieves, believed to be Americans, who were known under the names of Bard, Bertha and Cauda, have been sent to prison for thirteen months for robbing passengers on express trains.

HUCKLEBERRY FARMING.

Agriculture With a Match in the Timber Regions.

"It may seem incredible to those who have never lived in or traveled much through timber districts where the huckleberry is indigenous," said a native of such district, "but it is a fact that there is a tribe of shiftless persons in all such regions who systematically and without regard to law, property of life set fire to woods or cut over land adjacent to woods simply to increase the area of huckleberry bushes. There is only one way in which huckleberries can be cultivated, and the huckleberry farmer does not need to own an inch of land. If he has the title to one simple lucifer match he can put thousands of acres under cultivation in a very short time."

"He has only to light the match and touch it to the dry leaves and branches on the ground, either in early spring or late fall, and his cultivation is soon under way. No matter what grew on the ground before fire swept it bare huckleberry bushes will never fail to spring up luxuriantly from the ashes and scorched soil. They will be in abundant bearing the next season. What the result may have been in loss of life or property does not concern the persons who reap the benefit."

"Many of the fires that devastate our forests every year may be traced to this reckless and deliberate making or improving of huckleberry patches. I remember one instance particularly where the setting fire to the brush on a huckleberry barren in northern Pennsylvania resulted in a forest fire that swept over a 10,000 acre timber tract doing incalculable damage to the standing timber and reducing to ashes 50,000 feet of logs and lumber and 30,000 cords of tanbark, representing a money value of nearly \$750,000. Twenty persons were burned to death and thirty so badly burned that seven of them died from their injuries. The huckleberry crop gathered from this cultivation of that barren waste perhaps realized \$200 to the cultivators.—Washington Post.

PROVED HIS SPELLING.

An Incident in the Career of Stephen A. Douglas.

An amusing incident occurred in McLean county, Ill., at the first court which Stephen A. Douglas, the famous politician, attended after his election as prosecuting attorney. There were many indictments to be drawn, writes Professor Allen Johnson in his life of Douglas, and the new prosecuting attorney in his haste wrote the name of the county McLean instead of McLean. His professional brethren were greatly amused at this evidence of inexperience and made merry over the blunder. Finally John T. Stuart, subsequently Douglas' political rival, moved that all the indictments be quashed. Judge Logan looked at the discomfited youth and asked what he had to say to support the indictments.

Smarter under the gibes of Stuart, Douglas replied obstinately that he had nothing to say, as he supposed the court would not quash the indictments until the point had been proved. This answer caused more merriment, but the judge decided that the court could not rule upon the matter until the precise spelling in the statute creating the county had been ascertained.

No one doubted what the result would be, but at least Douglas had the satisfaction of causing his critics some delay, for the statutes had to be procured from an adjoining county.

To the astonishment of court and bar and of Douglas himself it appeared that he had spelled the name correctly. To the indescribable chagrin of the learned Stuart the court promptly sustained all the indictments. The young attorney was in high feather and made the most of his triumph. The incident taught him a useful lesson—henceforth he would admit nothing and require his opponents to prove everything that bore upon the case in hand.

ESCAPE FROM JAIL.

Three Alleged Counterfeiters Got Out of Prison at Madison, Wis.

Madison, Wis., Oct. 26.—Hugo, Albert and Rudolph Donnerstag, three brothers, arrested at Rhinelander early in August for counterfeiting, broke jail here and were gone half an hour before their flight was discovered. They have not yet been captured.

They were locked in a cell on the third floor of the jail and got out of their cage by use of a key, and by sawing iron bars with a crude saw made from a steel slat from their cell cot. They slid to the ground on a rope made of bedding torn in strips and tied together.

BREACH OF PROMISE.

Manner in Which the Law Treats It in Different Countries.

England is the best place, from the plaintiff's point of view, for a breach of promise action. All other countries seem to regard with grave suspicion any attempt to recover monetary compensation for the loss of a prospective husband, and unless the plaintiff has a very strong case indeed it is never worth her while to carry her grief into the law courts.

In France breach of promise cases are rare, for the simple reason that the law requires the plaintiff to prove that she has suffered pecuniary loss. Now, this is not an easy thing to do on the part of the lady, especially in a country where a girl without a dot—that is, a marriage portion—has a poor chance of finding a husband. Holland and Austria have adopted the French system, and the result has been about the same. Breach of promise actions are rare, the injured damsels or their relatives usually taking the law into their own hands.

Practical Germany, as might be expected, has perhaps the best method for solving this problem. When a young couple become engaged they have to go through a public betrothal ceremony that ought to knock all the shyness out of them. In the local town hall the pair declare their affection, willingness to marry, etc., ending by signing a collection of documents that apparently leave no loophole for escape. But if either party to the contract wishes to withdraw another journey is undertaken to the town hall and another collection of documents signed, witnessed and sealed. Then the authorities determine the question of compensation—should it be claimed. In this connection it may be said that the man can and often does claim a solatium for his wounded feelings. The usual award is one-fifth of the marriage dowry. It is easy to understand when all this is remembered how loath the young people of Germany are to break their betrothal oaths.

As the law of Italy affords little or no protection whatever to jilted damsels or swains, it is not surprising that the stiletto should be the favorite mode of deciding breach of promise cases. The Italian law demands that the person suing for the breach shall produce a written promise to marry from the defendant; otherwise the action cannot proceed. This difficulty is almost insurmountable, and the Italian judges are seldom troubled to adjudicate between one time lovers.

To bring an action for breach of promise of marriage against a reigning monarch is an achievement, but it has been done, and by an English lady. Miss Jenny Mighell sued the sultan of Johore, and as there was a doubt whether the dusky one was actually a reigning monarch the case was allowed to come into court, but the judge quickly disposed of the action by ruling it inadmissible for the reason referred to, and Miss Mighell was nonsuited.

It is remarkable that one of the two actions which have brought verdicts for \$10,000 each to the plaintiffs should have had for its defendant the editor of a matrimonial paper. The second case was between a well known actress and the eldest son of an earl.—London Tit-Bits.

Backache, Kidney Pain

Pains in the small of the back. There's no mistaking this sign of kidney trouble.

Other indications are frequent urination, pain or smarting when passing water, deposits in the urine, headache and loss of flesh.

Dr. A. W. Chase's Kidney and Liver Pills overcome kidney derangements more promptly and thoroughly than any treatment you can obtain because of their combined and direct action on liver and kidneys.

This letter to prove our claim.

Mr. B. F. Tazoo, Folk, Pa., writes:—"During eight years of suffering from kidney disease six doctors treated me with little benefit. On the third day after beginning the use of Dr. A. W. Chase's Kidney and Liver Pills I noticed an improvement and after using three boxes had gained 23 pounds and felt better than I had for nine years. I have told many about my wonderful cure."

Mr. Bryan has got near enough to the negro question to declare that the negro has a right to vote. He has the right, but it is not safe for him in states where Democrats are in power.

It is a strange plea of insurance against the danger of his own policies that Bryan makes in pointing out that his election would leave the Republicans in control of the senate.
